

Discover the Future of School Management with Responsible AI

A purpose-built AI-powered Unified SIS and LMS for K-12 Schools

Great schools are built on great learning experiences—not administrative complexity. CamuK12 simplifies the business of running a school by connecting every student, teacher, parent, and administrator on a single intelligent platform. With streamlined operations, real-time data and seamless communication, schools can focus on what matters most: helping every student thrive.

One Platform Unlimited Possibilities

In an increasingly digital world, schools need more than administrative software—they need a platform that unifies people, processes, and data. Our CamuK12 delivers a seamless experience for school leaders, teachers, students, and families, enabling personalised learning, operational excellence, and informed decision-making across the entire school community.

- Unified SIS + LMS on a single platform (rather than separate products)
- One record for every student across academic, pastoral, financial, and administrative functions.
- Integrated parent, teacher, student, and administrator portals.
- AI-enabled capabilities that reduce administrative workload.
- End-to-end student lifecycle management from enquiry and enrolment through graduation and alumni.
- Highly configurable workflows to match different school policies and processes.
- Mobile-first experience for teachers, students, and parents.
- Real-time dashboards and analytics to support data-informed decision-making.

Everything You Need to Run a Smarter School

For K–12 schools, the strongest value of CamuK12 isn't just the number of features—it's that they work together on a single platform. Here are the capabilities that typically resonate most with school leaders, principals, registrars, and business managers.

Student Information Management

- Single, lifelong student record
- Student demographics and family information
- Medical information and alerts
- Academic history
- Attendance history
- Behaviour and wellbeing records
- Communication history
- Document management
- Student progression from enrolment to graduation

Admissions & Enrolment

- Online admissions
- Digital application forms
- Document uploads and verification
- Waitlist management
- Offer and acceptance workflow
- Class allocation
- Student onboarding

Attendance Management

- Digital roll marking
- Mobile attendance
- QR code or facial recognition (where deployed)
- Late arrivals and early departures
- Parent absence notifications
- Attendance analytics
- Automated alerts for low attendance

Parent Engagement

- Parent portal
- Mobile app
- Real-time attendance updates
- Academic progress
- Timetables
- Homework and assignments
- Fee statements and online payments
- School announcements
- Parent Services

Teacher Productivity

- Digital class registers
- Lesson planning
- Assessment management
- Gradebook
- Report card generation
- Homework management
- Student observations
- Behaviour tracking

Learning Management (Integrated LMS)

- Online learning resources
- Assignment submission
- Quizzes
- Discussion forums
- Learning content repository
- AI-assisted content creation
- Blended learning support
- Learning progress tracking

Assessment & Reporting

- Configurable assessment structures
- Continuous assessment
- Semester reporting
- Student transcripts
- Progress reports
- Academic analytics
- Learning outcome tracking

Behaviour & Wellbeing

- Behaviour incidents
- Positive behaviour recognition
- Counselling records
- Student support plans
- Wellbeing monitoring
- Safeguarding notes (permission-based)

Timetable & Scheduling

- Master timetable
- Teacher schedules
- Room allocation
- Substitute teacher management
- Examination schedules
- Calendar integration

School Finance

- Flexible fee structures
- Scholarships and concessions
- Instalment plans
- Online payments
- Automated fee reminders
- Financial reporting
- Parent statements

Career Services

- Work Experience & Industry Placements
- Career Exploration from Years 7–12
- Employer & Industry CRM
- Digital Wallet & Lifelong Portfolio

Analytics & Leadership Dashboards

- Real-time dashboards
- Attendance trends
- Academic performance analytics
- Fee collection insights
- Enrolment forecasting
- Student risk indicators
- Executive reporting

Connecting Learning to Future Pathways

The Career Hub helps schools connect student learning with career exploration, work experience, employer engagement, and digital learner portfolios. It supports students in building direction, readiness, and evidence of growth across the school journey.

Key Capabilities

- Career exploration from Years 7 to 12
- Work experience and industry placement workflows
- Employer and industry relationship management
- Digital wallet and lifelong learner portfolio
- Student pathway planning and readiness tracking

Designed with Child Safety, Privacy and Security at the Core

Protecting student information is foundational to how the platform is designed and delivered. Supports secure access, responsible data handling and governance expectations for Australian school environments.

Ready to Shape the Future of Your School?

Every great school deserves technology that empowers educators, engages families, and helps every student succeed. CamuK12 brings together everything your school needs into one intelligent platform—simplifying operations while creating exceptional learning experiences.
